

Hi, I'm Climate Toothpaste. I want to connect you with climate advocacy groups in your area. A lot of people are concerned about climate change, but feel overwhelmed by the problem, and they don't know where to turn. **Good news:** amazing groups are already working on solutions! I'm here to help you learn about these groups, so you can find a fit.

Here's a text to introduce yourself:

I'm concerned about climate change and am learning how to be involved with climate solutions/carbon pricing initiatives/conservation. Can you tell me about your group and what you do?

TEXAS

Did you know? A 2015 state law largely strips cities and towns of the power to impose limits on fracking in Texas. Republican Gov. Greg Abbott said it was necessary to protect the oil and gas industry from, quote, "the heavy hand of local regulation."

Pricing Carbon

Citizens Climate Lobby
www.citizensclimatelobby.org

Citizens Climate Lobby is an international organization that is trying to pass legislation for a national carbon fee and dividend. What's missing from climate change? Political will. CCL creates that political will by educating about climate change. CCL has 30 chapters in Texas.

Climate/Environment

350.org www.350.org

A global grassroots climate movement that holds leaders accountable to the realities of science and the principles of justice. Through online campaigns, grassroots organizing, and mass public actions, 350 brings together a global network in over 188 countries. 350.org has chapters in Houston and San Antonio.

Environment/Conservation/Climate

Sierra Club
lonestar.chapter@sierraclub.org

Protects wilderness, helped pass the Clean Air Act, the Clean Water Act, and the Endangered Species Act. We are the oldest grassroots environmental organization in Texas. We believe our open spaces, clean water, and natural resources should be protected so that current and future generations may enjoy them. Our regional groups in Texas provide wonderful opportunities to explore, enjoy, and protect the state's natural wonders. Sierra Club has a main chapter in Austin, and 10 regional groups throughout Texas.

Climate Mobilization

The Climate Mobilization
www.theclimatemobilization.org

Climate change presents us each with a fundamental choice. Will we be passive as civilization slowly collapses around us? Or will we mobilize and fight back for a 100% clean energy future? The Climate Mobilization believes we need a WWII-scale national mobilization to fight climate change.
