

Hi, I'm Climate Toothpaste. I want to connect you with climate advocacy groups in your area. A lot of people are concerned about climate change, but feel overwhelmed by the problem, and they don't know where to turn. **Good news:** amazing groups are already working on solutions! I'm here to help you learn about these groups, so you can find a fit.

Here's a text you can use to introduce yourself:
I'm concerned about climate change and am learning how to be involved with climate solutions/ carbon pricing initiatives/conservation. Can you tell me about your group and what you do?

NEW YORK

Did you know? New York state has banned fracking. And New York is in The Regional Greenhouse Gas Initiative (RGGI), the first market-based regulatory program in the U.S. to reduce greenhouse gas emissions. RGGI is a cooperative effort among the states of Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New York, Rhode Island, and Vermont to cap and reduce CO₂ emissions from the power sector.

Pricing Carbon

Citizens Climate Lobby
www.citizensclimatelobby.org

Citizens Climate Lobby is an international organization that is trying to pass legislation for a national carbon fee and dividend. What's

missing from climate change? Political will. CCL creates that political will by educating about climate change. CCL has 18 chapters around NY.

Social and Environmental Justice

NY Environmental Justice Alliance
Brooklyn NY www.nyc-eja.org

I've been told that NYC-EJA has a new coalition to price carbon. Please let me know if you find out more about this. NYC-EJA empowers its member organizations to advocate for improved environmental conditions and against inequitable environmental burdens.

Climate/Environment

350.org www.350.org

A global grassroots climate movement that holds leaders accountable to the realities of science and the principles of justice. Through on-line campaigns, grassroots organizing, and mass public actions, 350 brings together a global network in over 188 countries. 350 has branches in Brooklyn and the Bronx.

Climate/Environment/Conservation

Sierra Club
atlantic.chapter@sierraclub.org

Protects wilderness, helped pass the Clean Air Act, Clean Water Act, and Endangered Species Act. Sierra Club wants to move away from the dirty fossil fuels that cause climate disruption and toward a clean energy economy. Sierra Club has 11 groups throughout New York state.

Fracking

New Yorkers Against Fracking
nyagainstfracking.org

New Yorkers Against Fracking was created when the need arose for a broad coalition of NY State residents to call for a ban on the dangerous practice of fracking. The coalition includes diverse members from every part of the state.

Climate Mobilization

The Climate Mobilization **Brooklyn NY**
www.theclimatemobilization.org

Climate change presents us each with a choice. Will we be passive as civilization slowly collapses around us? Or will we mobilize and fight back for a 100% clean energy future? The Climate Mobilization believes we need a WWII-scale national mobilization to fight climate change.
