

**Hi, I'm Climate Toothpaste.** I want to connect you with climate advocacy groups in your area. A lot of people are concerned about climate change, but feel overwhelmed by the problem, and they don't know where to turn. **Good news:** amazing groups are already working on solutions! I'm here to help you learn about these groups, so you can find a fit.

**Here's a text you can use to introduce yourself:**  
*I'm concerned about climate change and am learning how to be involved with climate solutions/carbon pricing initiatives/conservation. Can you tell me about your group and what you do?*

## OREGON

### Pricing Carbon

**Citizens Climate Lobby**  
[www.citizensclimatelobby.org](http://www.citizensclimatelobby.org)

Citizens Climate Lobby is an international organization trying to pass legislation for a national carbon fee and dividend. What's missing from climate change? Political will. CCL creates that political will by educating about climate change. CCL has 11 chapters around Oregon.

**Oregon Climate** [www.oregonclimate.org](http://www.oregonclimate.org)  
[page@oregonclimate.org](mailto:page@oregonclimate.org)

Oregon Climate spearheads a statewide, youth-led campaign behind a carbon price and dividend policy. OC hopes to make Oregon a national model for strong climate policy that encourages conservation, levels the playing field for clean energy, and helps all Oregonians in the transition away from fossil fuels.

### Pricing Carbon

**Renew Oregon** [info@reneworegon.org](mailto:info@reneworegon.org)

In 2016, Renew Oregon passed the Clean Electricity and Coal Transition bill, which makes Oregon the first state in the nation with legislation to go coal-free. And it is the first state-level renewable energy victory following the Paris climate agreement. Renew Oregon is a Portland-based coalition working to transition away from dirty, polluting energy to a clean, energy-efficient economy.

### Coal & Oil Trains/Exports/Terminals

**Power Past Coal/Stand Up to Oil**  
[www.powerpastcoal.org](http://www.powerpastcoal.org)

Power Past Coal is an alliance working to stop coal export off the West Coast. Stand Up to Oil opposes new oil terminals and increased oil transport through the Northwest, and works to improve safety measures for oil currently traveling through the region.

### Climate/Environment

**350.org** [www.350.org](http://www.350.org)

A global grassroots climate movement that holds leaders accountable to the realities of science and the principles of justice. Through online campaigns, grassroots organizing, and public actions, 350 brings together a global network in 188 countries. 350 has groups in Portland, Salem, Corvallis, Eugene and Bend.

### Climate/Environment/Conservation

**Sierra Club** [information@sierraclub.org](mailto:information@sierraclub.org)

Protects wilderness, helped pass the Clean Air Act, Clean Water Act, and the Endangered Species Act. Sierra Club wants to move away from the dirty fossil fuels that cause climate disruption and toward a clean energy economy.

**Other Oregon groups:**  
 Columbia Riverkeeper  
 Friends of the Columbia Gorge

### Climate Mobilization

**The Climate Mobilization**  
[www.theclimatemobilization.org](http://www.theclimatemobilization.org)

Climate change presents us each with a choice. Will we be passive as civilization slowly collapses around us? Or will we mobilize and fight back for a 100% clean energy future? The Climate Mobilization believes we need a WWII-scale national mobilization to fight climate change.

**Other national groups:**  
[americansagainstfracking.org](http://americansagainstfracking.org)
